SCENARIOS

Transfer

```
@Tranfer
Feature: Transfer
In order I am  token owner
As a user I want to tranfer my tokens to another address

Background:
    Given I am at my dashboard page
    And I click Send button

    Scenario: Transfer whith valid address to
      When  I fill the field address_to whith valid <address>
      And I fill the field value <amount>
      And I click "Send" button
      Then should see the message "Transfer success!"
```

```
Scenario: Transfer whith invalid address to
  When  I fill the field address_to whith invalid <address>
  Then I should see "Invalid address" message

Scenario: Transfer whith no balance
  When I fill the field address_to whith valid <address>
  And I fill the field value <amount>
  And value <amount>  is greater than <my-balance>
  Then I should see "Dont have balance"  message
```
