4 - Now use your password to enter your wallet, click ***“Signin”*** button

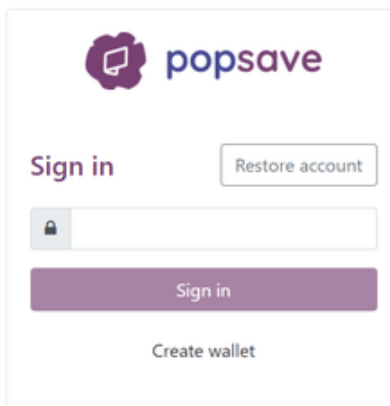

The image shows the Popsave login interface. At the top is the Popsave logo, which consists of a purple icon of a speech bubble with a checkmark inside, followed by the word "popsave" in a purple sans-serif font. Below the logo, there are two links: "Sign in" in purple and "Restore account" in a light purple box. Under these links is a password input field with a lock icon on the left and a green checkmark on the right, indicating a successful login. Below the password field is a large purple button labeled "Sign in". At the bottom of the interface is a link labeled "Create wallet".

It is very important that you store your mnemonic phrase in a safe place because if you need to recover your wallet you will need it.

Instructions to Restore Wallet

If you already have a wallet and need to recover it, the first step is:

1 - On signin page, click on the button ***“Restore account”***

This image is identical to the one above, showing the Popsave login interface. It features the Popsave logo, "Sign in" and "Restore account" links, a password input field with a lock icon and a green checkmark, a large purple "Sign in" button, and a "Create wallet" link at the bottom.

2 - On restore page you need paste your ***mnemonic phrase***, create a password and confirm the password, then click on ***“Restore”*** button.
