

# Requirements Must Docs

## Objective

Developed using blockchain technology and smart contracts a decentralized digital document validation solution that offers the user complete control of their data.

This Persona will send your information and document to a Validator.

A Validator is registered and authorized to perform this function in the application, is selected by Persona to be able to validate your information.

This Validator, approved by an administrator, validates Persona's information.

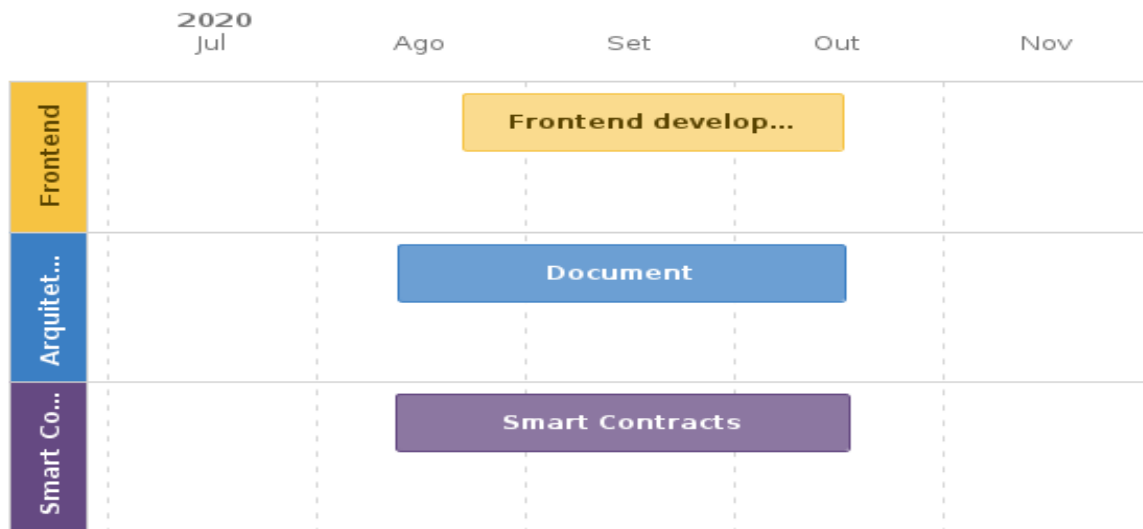

The sending of documents and information needs to be done in a secure way, access to information is only from Persona and the Validator that Persona defines to validate the information.

The certified module creates and stores this more informal type of document that does not need regulation and recognition of a specific organ.

## Ecosystem Roles

Role	Description
Persona	The user who creates an account, add a nickname to create a Persona smart contract.
Validator	The user who creates an account and has approved by Register admin to be a validator.

## Milestones

## Requirements

	Requirement	User Story
1	Create Account	As a user I want to create an account to use Must Docs and keep my documents safe.
2	Restore Account	As a user who already has an account I want to be able to recover my account to use Must Docs and keep my documents safe.
3	Create Persona	As a user I want to create my Persona to add my information and documents.
4	Add Information	As a Persona I want to add my information and documents to be able to validate them
5	Send to Validate	As a Persona I want to select validators and send my document and information securely
6	Create Validator	As an authorized user, I want to create my validator profile.
7	Validate Information	As a validator I want to access an application to validate the information sent to me.
8	Access profile information	As a Must Docs user I want to access my profile information in the application.
9	Certifications	As Persona I want to create and receive certificates

## User interaction and design

### Scen Drafts

*Sign in page*

The sign in page features a dark blue sidebar on the left with the 'PoP Docs' logo. The main content area is light gray and contains a 'Sign in' heading. Below the heading is a password input field with a lock icon, a blue 'Sign In' button, and a 'Save Password' checkbox. In the top right corner is a 'Restore account' button, and in the bottom right corner is a 'Create account' link.
